

# Agilent E3669B BNC-BNC f to f Panel

## Data Sheet

### Coordinate pass through of cables or probes

Agilent BNC-BNC panels can be used when cables or probes need to pass through from the inside of the rack to the front.

### Features

- Contains 10 floating, isolated connectors
- Attractive quartz gray color
- All mounting hardware included

### Specifications

- EIA units: 1 unit
- Material: Cold-rolled steel
- Weight: .45 kg (1 lb)
- Color: Quartz gray
- Length: 439 mm (19 in)
- Width: 44 mm (1.74 in)

### Installation

Locate the appropriate holes on the front columns of the rack. Position the two sheet metal nuts over the holes. Attach the panel using the hardware included.

Tools required for installation:

- Phillips screwdriver

E3669B shown here with the E3668B feedthrough panel

### What you get in the box

- BNC panel assembly
- Mounting hardware
- Installation instructions

### What changed

Replaces E3669A

- Color changed from parchment white to quartz gray.

### Compatibility

Can be used with:

- E5920B – .720 m rack
- E3660B – 1.1 m rack
- E7590A – 1.3 m rack
- E3661B – 1.6 m rack
- E3662B – 2.0 m rack

### Warranty

Three year replacement

Agilent Technologies

**Agilent Technologies' Test and Measurement Support, Services, and Assistance**

Agilent Technologies aims to maximize the value you receive, while minimizing your risk and problems. We strive to ensure that you get the test and measurement capabilities you paid for and obtain the support you need. Our extensive support resources and services can help you choose the right Agilent products for your applications and apply them successfully. Every instrument and system we sell has a global warranty. Support is available for at least five years beyond the production life of the product. Two concepts underlie Agilent's overall support policy: "Our Promise" and "Your Advantage."

**Our Promise**

Our Promise means your Agilent test and measurement equipment will meet its advertised performance and functionality. When you are choosing new equipment, we will help you with product information, including realistic performance specifications and practical recommendations from experienced test engineers. When you use Agilent equipment, we can verify that it works properly, help with product operation, and provide basic measurement assistance for the use of specified capabilities, at no extra cost upon request. Many self-help tools are available.

**Your Advantage**

Your Advantage means that Agilent offers a wide range of additional expert test and measurement services, which you can purchase according to your unique technical and business needs. Solve problems efficiently and gain a competitive edge by contracting with us for calibration, extra-cost upgrades, out-of-warranty repairs, and on-site education and training, as well as design, system integration, project management, and other professional engineering services. Experienced Agilent engineers and technicians worldwide can help you maximize your productivity, optimize the return on investment of your Agilent instruments and systems, and obtain dependable measurement accuracy for the life of those products.
