

MaxView Cinema Kit

High-performance Video Converter with
20-foot Audio and Video Cables

**Enjoy the Power of DVD and Video-on-
demand in Your Family Room**

Make Computer Time Family Time!

Get the big picture! Start Watching DVD and VOD movies on your big-screen TV. No need to buy a stand-alone DVD player when you can use MaxView Cinema Kit to integrate your PC's **existing** DVD drive into your home theater. 20 ft. video and audio cables give you the flexibility to start enjoying movies, PC games and surfing the Internet from your couch.
