

# 04-TG1

## Tie Gun

### Description:

Hand held tie gun rapidly tensions and cuts off excess cable tie without leaving behind any sharp edges that would cause cuts, snags, and abrasions. Manually cuts off excess with a squeeze of its cut-off handle. For use with 120 and 175 lb. cable ties.

### Max Tie Width Accepted:

.380" (9.65mm)

### Material:

Metal

### Length:

7.680" (195.0mm)

### Weight:

0.57 lbs. (0.26kg.)

# 04-TG2

## Tie Gun

### Description:

Hand held tie gun rapidly tensions and cuts off excess cable tie without leaving behind any sharp edges that would cause cuts, snags, and abrasions. Saves time by automatically cutting off excess when selected tension has been achieved. Saves time on installation with one pull of its trigger to produce a very consistent tension from one cable tie to the next. For use with 18, 40 and 50 lb. cable ties.

### Max Tie Width Accepted:

.200" (5.08mm)

### Material:

Metal

### Length:

6.500" (165.0mm)

### Weight:

0.66 lbs. (0.30kg.)
