

EMI/EMC FILTER

PC2/PC3/PC4 SERIES

FEATURES

- Unique structure and economical.
- Suitable for the products that must conform to FCC, FTZ.
- Very good filtering characteristics for both differential mode and common mode.
- Epoxy molded for reliability.

APPLICATIONS

- Digital equipments.
- Medium capacity UPS.
- Measuring instruments and medical instruments.
- Facsimile, copy machines, OA instruments.
- Computerized washing machines, refrigerators and ranges.

SPECIFICATIONS

Model	Rated Voltage (AC,DC)	Rated Current	Temperature Rise(max.)		Operating Temperature
			1	*2	
PC2, PC3, PC4-F05	250V	5A	45°C	30°C	-25°C to + 85°C Including temperature rise * Fig.1
PC2, PC3, PC4-F08	250V	8A	45°C	30°C	
PC2, PC3, PC4-F10	250V	10A	45°C	30°C	
PC2, PC3, PC4-F15	250V	15A	45°C	30°C	

Note: Test Voltage : 1500V AC one minute, line to earth.
 Insulation Resistance : 300 Mohm min. at 500V DC.
 Leakage Current : 0.6mA max.
 Voltage Drop : 1V max. at rated current.
 Weight : PC2 series : 90g, PC3 and PC4 series: 86g
 Discharge Time : 0.4 sec. max.
 *2 : Temperature rise when mounted on 200mm x 200mm x t : 1.0mm steel chassis.

* Fig.1
