

Audio Patch Panels and Accessories BPO Audio Jackfields

Robust construction uses an machined extruded aluminium front panel. Connectors used are BT standard B Gauge ¼ inch 5 point socket with angled earth tag (Bantam jackfields also available), mounted on injection moulded blocks and isolated.

Improved designation strips maximising visible area of paper and clip-on clear plastic retaining covers for ease of assembly. Lacing bar supplied as standard.

Standard finish: Storm Grey powder coat for excellent finish and robustness (Dawn Grey or Black available as an option, please ask for details)

Half normalling, normalling and earth bussing can be pre-wired to order

- normalling
- to connector
- to Krone blocks
- to tails
- Screened single pair or overall screened multicore

Jackfields wired to connectors are fitted with a mounting frame to replace the cable lacing bar. BES will quote for most types of connectors.

Jackfields wired to connecting blocks are via a specified loom length.
