4-Bay SAS/SATA 5.25" Enclosure

General Description:

RSI-Q25SAS is an extremely small, cost effective and highly scalable storage system using the SAS 3 Gb/s interface.

Features:

- 4 Bay SAS/SATA 3 Gb/s JBOD
- Single 5.25" HH Enclosure
- Dual Port Support for SAS
- RAID available through PCI RAID Controller
- Supports SATA 1/2 3 Gb/s
- RoHS Compliant
- Plug & Play, Hot Swappable
- 2 LED's for Power & HDD Access per drive
- Aluminum Frame

Specifications:

- Unit Weight without drives 1.4 lbs
- Unit Weight with SAS drives 4 lbs
- Dimensions: 185 (L) x 146 (W) x 41 (H) mm.
- Dual low noise fans
- Power Req. Standard Disk Drive Power Connector
- Disk Ports 4 SAS primary & 4 SAS Secondary
- Host Dual Port
- Eight SATA Connectors

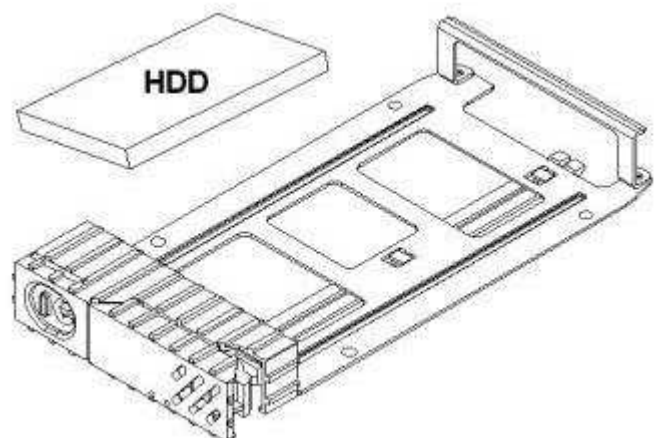

Application:

RSI-Q25SAS supports small form factor high capacity SAS disk drives (2.5") in a single 5.25" half height enclosure thus multiplying the number of spindles typically used in the space by a factor of four.

RSI-Q25SAS can also be aggregated into larger chassis with multiple enclosures to provide high performance, highly scalable, fault tolerant, enterprise class storage.

RSI-Q25SAS is the smallest available storage system which provides affordable, scalable storage solutions in the smallest form factor ever available.

RSI-Q25SAS

There are four holes at the bottom of each tray, use the screws (provided) to mount the HDD on the tray.
