# 9000 SERIES/MOLDED SIP REED RELAYS

### 9000 Series High Performance SIP Reed Relays

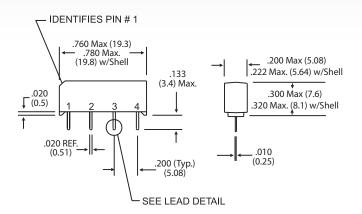

The SIP relay is the industry standard when high reliability and consistent performance are desired in a compact package. The 9001 and 9002 are high performance relays ideally suited for Automatic Test Equipment, Instrumentation, RF and Telecommunications applications. The specification tables allow you to select the appropriate relay for your application.

#### **9000 Series Features**

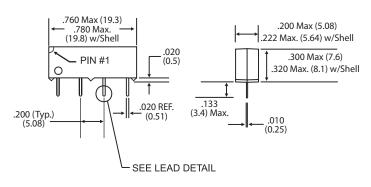

- ▶ High Insulation Resistance  $10^{12}\Omega$  minimum ( $10^{13}\Omega$  typical)
- ► High reliability, hermetically sealed contacts for long life (tested up to 1 Billion Operations)
- ▶ High dielectric strength available, consult factory
- ▶ High speed switching compared to electromechanical relays
- ▶ Molded thermoset body on integral lead frame design
- Coaxial Shield for 50Ω impedance and switching of fast rise time digital pulses - 9002 only
- ▶ Optional Coil Suppression Diode protects coil drive circuits
- ▶ UL File #E67117, CSA File #028537 Contact factory for details
- ▶ RoHS compliant

# DIMENSIONS in Inches (Millimeters)

Model 9001

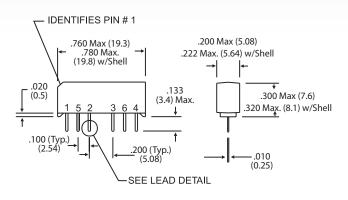

#### Alternate Package

## NOTE

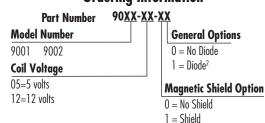

▶ For RF Graph Performance, see "RF Graphs" section of the *Reed Relay Technical & Application Information* 

#### Model 9002
