Model #: 0SU51060

Minicom Specter II PS/2 (8 Pack) - Remote Unit for Phantom Specter

Highlights

- Needed to connect a PS/2 Server to a Minicom Phantom Specter KVM switch installation
- Easy to install; no software needed
- No power supply needed
- Allows a recommended maximum distance of 360 ft. (110 m.) from the KVM to the last remote unit in the installation
- Compact and lightweight design
- Compliant with the Federal Trade Agreements (TAA) for GSA Schedule purchases

Description

The Specter II PS/2 remote unit connects to the HD15 and PS/2 ports on a computer/server, and converts them to a single RJ45 connector. Ordinary Cat5e patch cables can then be used to connect the computer/server to the system ports on a Minicom Phantom Specter or Phantom MXII KVM switch, or a Specter II USB or PS/2 remote unit. Use of Cat5e cables frees up space in the installation that would be filled by traditional, thicker KVM cables. Compliant with the Federal Trade Agreements Act (TAA) for GSA Scheduled purchases.

System Requirements

- Minicom Phantom Specter or Phantom MXII KVM Switch
- Computer with a VGA video port
- Computer with a PS/2 keyboard and mouse ports

Package Includes

- (x8) 0SU51012 Specter II PS/2 Remote Unit
