

DTP-A Series

Touch panel DALI controller

Features

- * For DALI systems
- * On/Off switchable function
- * DTP-A serves as master controller and power supply for 2 DRD-S1 slave controllers
- * Automatic synchronization makes it possible to change the control location without disturbing effects (Brightness /ONOFF)
- * 1 - 6 Individual DALI addresses can be addressed and controlled independently
- * Recall and store up to 4 lighting scenes
- * Readdressing of individual DALI addresses possible
- * 2.8" LCD display

Specifications

1. Input Voltage : 18~20Vdc
2. Power Consumption : 5W
3. Output Current : 150mA max.
4. Maximum length of signal line : 300m
5. Master⁽¹⁾ DTP-A Max connection : 45 Ballast or LED Device
6. Master DTP-A Max connection : 2 Slave⁽²⁾ DRD-S1
7. Over Current Protection and Short Circuit Protection
8. Operating Temperature : 0~50°C

Note:

- (1) The Master operation can deliver the required control current itself when connected to the DC Power Supply.
- (2) The Slave operation can be supplied directly from the DALI control line.
