*Aluminium markers **ALUCARD AC** can be used for labelling in a wide variety of applications. All of these markers – whether they are device and installation tags, cable tags or round blanks – come packaged in cards so they are efficient and inexpensive to process. They are simply inserted into the feeder of the **FMScolor** printer.*

The printer delivers a visually appealing high-quality print with optimal colour values (line widths of 0.1 mm) and excellent resistance in industrial surroundings. When printed with the **FMScolor**, these markers provide you with maximum cost effectiveness and optimal custom labelling for each marker.

Conventional engraving, laser or Anodic printing processes – which can be time-consuming and require much manual labour – are now a thing of the past.

Extensive testing and selective procedures provide maximum customer value. There are twelve different marker sizes available in silver matte with rounded corners. The material is 0.5 mm thick. A 500 x 400 mm card of blanks give more versatility when creating the markers.

The self-adhesive markers have strong adhesive glue that is suitable for the most extreme requirements.

The markers with holes can be attached using rivets, screws or cable ties.

The **FMScolor** printer allows to print markers in one efficient step when needed them – in colour with no additional costs.

**Our ideas – your advantages**

# Markers for Cables, Devices and Installation – Alucard AC

- Aluminium markers available in 12 sizes
- Our certified material gives you the best label print in the highest quality – and in colour when used together with our **FMScolor** printing system!
- For many applications: Tags for devices and equipment, cable tags and round blanks
- All markers are in silver matte with rounded corners
- Markers are pre-assembled on cards
- Material thickness of 0.5 mm
- Maximum customer benefit provided by our extensive selection and testing procedures
- Card of blanks in 500x400 mm for self-assembly
- Self-adhesive markers with strong adhesive
- The markers with holes can be attached using rivets, screws or cable ties.
- Blank cards can be cleanly attached using a single fixture

<b>Type</b>	
Type	<b>Alucard AC</b>
<b>Colours available</b>	Silver matte
<b>Characteristics</b>	
<b>Dimensions</b>	
Card size, mm	21x14.7
Attachment holes, mm	Depending on type: 3.7   2.6   3.1
<b>Material</b>	
Material	Anodized aluminium with enamel coating
Temperature range	-40°C to +800°C
Resistance	Acetone, oils, greases, lubricants, cleaning agents, UV, weathering, chemicals, seawater
<b>Inscription</b>	
Printing process	Ink-jet printing
Fixation	Heat
Resistance	Smudge and scratch resistant Acetone, oils, greases, electrical cabinet cleanser, dry cleaning, high pressure cleaning with hot steam, sparks, 2000 h UV radiation
<b>Application</b>	
Attachment	Depending on the type: screw, rivet, cable tie, self-adhesive

Cat. no.	Type	Tag size LxWxH (mm)	Attachment	Markers per card	Qty. (cards)
<b>9830.0</b>	AC KM 25/12 (1.5x4.5) SI matte	12x25x0.5	Cable ties	40	10
