

# COM<sup>®</sup> Express Bus Extender

Connect Tech's COM Express Bus Extender provides relief to small batch COM Express testing cycles. Designed to extend the life of your COM Express Module/Carrier connectors, this impedance controlled design allows for full Type 2 or Type 6 COM Express system functionality without compromising the testing process.

With solid, solder mount standoffs, the COM Express Bus Extender can be used with Compact or Basic COM Express Modules. Save your expensive modules by wearing out the insertion rating of Connect Tech's COM Express Bus Extender.

**Product Name:** COM Express Bus Extender  
**Part Number:** ADG053

| Specifications      |                                  |
