

MODEL 5511

SLIM TABLET STAND

FOR TABLETS, EREADERS, AND SMARTPHONES

TABLET ACCESSORIES

The USRobotics Slim Tablet Stand is the perfect accessory for hands free viewing. The slim metal, foldable stand can be used with most tablets including the iPad, Xoom and Playbook, but it also works with other small devices like ebook readers or large smartphones. Go hands free and watch videos more comfortably, switch to the lower angle to type easily when emails come in, or multi-task at the office and put your tablet next to your monitors. Better yet, use your tablet as the only display with this stand and become even more efficient with a USR Bluetooth keyboard. This thin one piece design is easy to tuck away and even comes with a travel bag making this the perfect accessory for all tech gadget users.

USRobotics®

Versatile hands free viewing, in a small package

Adjustable height

- Upright position for watching, surfing, or reading
- Low angle position for on screen typing

Excellent Design

- Sturdy metal one piece design
- Works with tablets in both portrait and landscape modes, even with protective cases
- Silicone caps protect the device and keep the stand in place while typing
- Open design enhances air flow to keep devices cool

Portable

- At 7 inches long and less than an inch wide this stand is easy to carry and tuck away in a bag
- Very lightweight - less than .5 lbs

Accessorize

- Great for use with additional accessories like Bluetooth keyboards

Applications

- Watch videos without having to hold the tablet the whole time
- Work more comfortably and type at a comfortable angle
- Use with laptops to help keep the device cool
- Use in the kitchen to easily follow recipes on your tablet
- Give your wrists a break from all the e-reading
