

SilverStor™

8 Bay Thunderbolt™ Desktop SAS/SATA RAID Storage Solution

SilverStor™ 8 Bay Thunderbolt™ Desktop SAS/SATA RAID Storage Solution

Finally, a small, quiet and lightweight Thunderbolt™ desktop data storage subsystem with up to 32TB capacity and the high performance required for demanding imaging and video applications! This latest addition to the JMR product line features 700 MB/s data transfers when used in conjunction with a Thunderbolt Macbook Pro, MAC Mini or PC with available Thunderbolt™ connection.

The **SilverStor™ 8 Bay Thunderbolt™ Desktop SAS/SATA RAID Storage Solution** is available configured for immediate installation and connection to your host computer having an available Thunderbolt connection.

Styled in anodized aluminum, the **SilverStor™ 8 Bay Thunderbolt™ Desktop SAS/SATA RAID Storage Solution** has integrated carrying handles, weighs only 22 lbs and is a diminutive 6.75"W x 11"H x 15"D. It is so quiet you'll hardly know it's powered on.¹ It connects with a single Thunderbolt™ cable to a Thunderbolt™ enabled system. Standard systems are provided with eight 1TB, 2TB, 3TB or 4TB SATA disk drives (hot swappable, in easily removed disk carriers); other drive types including 15K RPM SAS drives and SSDs are available and compatible.

Notes:

1. Thermostatically controlled cooling system produces only 33dB(A) acoustic noise when operating in a 25°C ambient environment.
2. Thunderbolt is a trademark of Intel in the US and other countries

Features:

- Eight 3.5" Hot Swappable Disk Drives
- Compatible with all 3.5" SAS/SATA Disk Drives and SSDs
- Up to 32TB Capacity with SATA drives
- 10Gb Thunderbolt™ to 6Gb SAS/SATA with support for up to 128 disk or tape devices
- Provides RAID Levels 0, 1, 5, 6 & 10
- SES 2.0 Compliant
- 100% RoHS Compliant
- FCC Class (B) Licensed for Home or Industrial Use
- CE Certified and Licensed for Use Worldwide
- 100% Turnkey Systems are Configured and Burned in, with 3 Year Limited Warranty.
- Support for Mac OS® X, and Windows®, with Thunderbolt™ enabled systems
- RAID Rebuilds, Media Scan and other operations continue without a host connection

® Registered trademarks of the respective companies.
