Designed to deliver peace of mind in the most demanding data storage, imaging and video applications, the **SilverStor™** 10-Bay Desktop SAS/SATA JBOD/RAID delivers high storage capacity (up to 30TB) and powerful, robust performance in a compact desktop unit.

Used with a Mac Pro, or similar servers or workstations, the system enables 1000MB/s data transfer via a single mini-SAS cable to the supplied SAS Host Adapters or RAID Controller PCI-E cards, making it ideal for critical content creation applications.
