

BarcoReality 6400i

The BarcoReality 6400i provides a unique solution for the most demanding presentations in boardrooms, conference rooms or education centers, requiring high resolution. High brightness (3,200 ANSI lumens), a new 600 Watt lamp and state-of-the-art S-XGA polysilicon panels ensure natural, uniform images with a remarkable level of color saturation. Thanks to its optional network capabilities, integration in the company network is easy, reducing the total cost of ownership.

Product specifications

BarcoReality 6400i

Light output	3,200 ANSI lumens
LCD panels	3 active matrix 1.8" diagonal S-XGA polysilicon LCD panels (1280 x 1024 - 5:4 aspect ratio)
Compatibility	<ul style="list-style-type: none">· All current video sources in Composite, S-VHS, Component or RGB formats· All currently proposed HDTV, extended and improved television standards· All computer graphics formats up to S-XGA· Most Macintosh computers· Electronic workstations up to 2000 x 1280 pixels/76 Hz· Most sources with a pixel clock up to 200 MHz
Contrast	<ul style="list-style-type: none">> 300:1 (full white/full black)> 180:1 (5 x 4 ANSI checkerboard)
Lamp	600 Watt metal-halide arc lamp Typical lifetime of 1000 hours
Screen size	From 1 - 6 m, except for the QGD (0.8:1) lenses
Weight	Body only: 17.7 kg/39.0 lbs. Body + lens: 21-25 kg/46.3-55.1 lbs.
