

# D320

The Input Controller Series is a multi-input control device, allowing you to show a multitude of windowed inputs onto a single display. Able to control LED displays, the Input Controller offers a wide range of effects such as alpha blending, chroma keying and z-order control.

Barco's Input Controller comes fully equipped with all necessary hardware and control software and is available with 4 inputs.

## Product specifications

## D320

<b>Input</b>	4 user defined inputs Front accessible Integrated video processing Auto sensing, hot swappable S-video, composite, YUV, RGB SDI, HD-SDI, DVI up to UXGA
<b>Compatibility</b>	LED displays
<b>Output</b>	DVI-A, DVI-D, RGB
<b>Control</b>	<ul style="list-style-type: none"><li>- Scaler 4 input channels [Data-Video] fully scalable to desired output resolution</li><li>- Z-order Instant modification of Z-order control, for each output window</li><li>- Window positioning Intuitive positioning interface</li><li>- Connectors RS 232 [RJ11]</li></ul>
<b>Effects</b>	Anamorphic imaging Chroma-keying [per input] Alpha-keying [per input] Z-order control Windowing/ View ports
<b>Operating T°</b>	0° <-> 45°
<b>Power</b>	240W-480W auto ranging 90-264V (50-60 Hz) Connector: 3 pin IEC
<b>Order Information</b>	R9851570
