

SF-10v

Outdoor LED video display for sports applications

Barco SF-10v is a modular outdoor LED video display offering the best available price-performance ratio in its class. It is specifically designed for sports stadiums and sports events, where it ensures fantastic image quality, extensive control functionality and advanced image processing.

Maximum fan experience

Thanks to the dedicated sports content management system, the SF-10v is compatible with all major time and scoring products. Superb combinations with video, graphics and score contribute to a maximum fan experience. The product is perfectly suitable for both giant screen and fascia installations. In short, a must have for any venue.
