

DP2K-19B

Ultra-bright DLP Barco Alchemy Cinema projector for screens up to 19m (62ft)

The Barco Alchemy DP2K-19B is an ultra-bright and fully integrated digital cinema projector for theaters with screens up to 19m (62ft) wide, based on Texas Instruments' 1.2" DLP Cinema® chip. It ensures exceptional image quality for a premium movie experience in 2D and 3D. By merging the projector and media server functionalities into one projector module, the Barco Alchemy DP2K-19B is a full-fledged, **DCI-compliant projector and media-server solution with on-board storage**. Reducing the required hardware, it increases **simplicity and reliability**. The smart projector even detects potential operational errors and warns users in case of mishaps. Great in **TMS environments**, it operates **stand-alone in single-screen applications**. Thanks to the embedded **Barco Web Commander** user interface, shows can be created and scheduled remotely.

Low cost of ownership

Geared with the integrated Barco Alchemy technology that drives operational and maintenance costs down, the DP2K-19B offers superior image processing, pristine images and ultimate reliability at a low TCO.

Easy maintenance and operation

The DP2K-19B comes with the intuitive 'Barco Web Commander' system for simple operation. The projector detects potential operational errors and warns users if, for instance, a scheduled show is missing assets or KDMs. It also has a fully modular architecture for simple serviceability and higher uptime.

The DP2K-19B projector is also available in a package with a third-party media server and it can be ordered without the Barco Alchemy module as well.

Unique benefits of Barco Alchemy technology

- Combines media server functionalities with cinema processing electronics
- Fewer boxes lead to more reliability and ease-of-use
- Simple operation thanks to intuitive 'Barco Web Commander' user interface
- Easy upgrading of Series 2 projectors with Barco Alchemy module
