

# MDRC-1119 ATM/TS

19" auxiliary display with touch screen for Air Traffic Control

Today's ATC and ATM environments require more diverse HMI display surfaces. That's why Barco developed the MDRC-1119 ATM, a 19-inch auxiliary display with a 1,280 x 1,024 resolution and a user-friendly touch screen interface.

The high-quality LCD panel presents images with high brightness and offers a wide viewing angle. The MDRC-1119 ATM display allows for easy integration into consoles and comes with an optional protective front cover.
