

Dual-Mic Bluetooth Headsets

BTH-526

BTH-526 provides excellent clear sound performance, the Dual-mic noise canceling technology can separate and enhance your voice to minimize distracting background sounds. No matter you're in the car, on the street or at the airport, take control of your environment and achieve clear conversations.

The dual-pairing technology enables the BTH-526 to be paired and link up with two mobile phones simultaneously and allows user to switch the connection between talking parties. Furthermore, the A2DP stereo streaming also provides high quality music playback and control.
