

Recessed Double Contact Lampholders

For 800 and 1500mA Lamps

582.GDF™ & 583.GDF™ Series Lampholders

Completely isolates the face of the socket from ground. No metal clips means no corrosion or electrical grounding.

The Socket Sentry™ protective shield for lamp base and lampholder when installed on the bottom of a vertically installed T12 fluorescent lamp with a Kulka 582/583 Series lampholder will provide a shield of the lampglass, lampbase and lampholder electrical connection from water-spray, condensation, leakage and dust.
