

## Travelstar™ 7K750

# 2.5-Inch Mobile 7200 RPM 9.5mm Hard Disk Drives

## **Highlights**

- Up to 750GB<sup>1</sup> of capacity
- Advanced Format, industry standard 4K sector size
- 512 byte emulation (512e)
- 7200 RPM high-performance HDD
- Low power consumption
- · Halogen-free for eco-friendly design
- · Self-encrypting models for data security
- Enhanced availability (EA) models for applications needing around-the-clock access in lower-transaction environments

#### **Applications/Environments**

- Notebook PCs
- External storage
- Compact desktop PCs
- · Gaming PCs
- · Small-form-factor video devices
- Blade servers (FA)
- Network routers (EA)
- Video surveillance (EA)
- Compact RAID systems (EA)

## High-Capacity Storage Paves the Way for New Mobile Platforms

Travelstar™ 7K750 is a 7200 RPM, 375GB/platter, 2.5-inch hard drive with capacities of 500GB, 640GB and 750GB. This standard 9.5mm, two-disk design, intended for use in notebook PCs, external storage and other mobile applications, uses the industry's new Advanced Format. Advanced Format increases the physical sector size on hard drives from 512 bytes to 4096 (4K) bytes, which increases drive capacities and improves error correction capabilities. The Travelstar 7K750 allows manufacturers to deliver high-capacity, power-efficient systems. Manufacturers can consult the HGST Advanced Format Technology Brief for more information on using these hard drives. The 7K750 continues HGST's tradition of ecological leadership and carries its EcoTrac classification. Travelstar 7K750 delivers speed and capacity, without sacrificing battery life or audio quality, to meet the multi-tasking demands of commercial and consumer users on the go.

## **Encryption Option**

Travelstar 7K750 is the fifth generation self-encrypting drive (SED) to feature HGST's Bulk Data Encryption. The SED encrypts data using protected keys in real time, providing users the highest level of data protection available. It also speeds and simplifies drive repurposing. By deleting the encryption key, the data on the drive is rendered unreadable, thereby eliminating the need for time-consuming data-overwrite. For information about the SED models designed to meet the Trusted Computing Group (TCG) Opal Storage Security specification, please contact your HGST representative.

## Enhanced Availability (EA)—for 24x7 Access to Data

HGST provides enhanced availability models that allow the Travelstar 7K750 to deliver 24x7 access to data for data-intensive applications requiring round-the-clock operation. The 7K750 provides high capacity, durability and low power utilization on a proven platform for quality and reliability. EA models support the stringent demands of "always-on" applications in lower-transaction environments.

## Features and Benefits

	Feature / Function	Benefits	
Capacity	Up to 750GB storage	Up to 187 hours of high-definition video, 750 hours of standard video, 260 movies, 188,000 4-min songs or 375 games *	
Performance	Up to 1276Mb/s media transfer rate	Faster downloads and better application performance than 5400 RPM models at same capacity	
Power	1.8W read/write power 0.7W low power idle	Low energy use and long battery life for more "unplugged" notebook time	
Reliability	400G operating shock 1000G non-operating shock	Best protection against bumps and rough handling	
	Thermal Fly-height Control (TFC)	Better soft error rate for improved reliability	
	TrueTrack™ technology	Tracking accuracy in high shock or vibration environments	
Acoustics	Quiet acoustics	Richer audio-listening experience for music, movies and games	
Interface	SATA 3Gb/s	High data throughput	
Security Option	Bulk Data Encryption	Helps guard against data theft	

<sup>\*</sup> Actual storage may vary depending on the compression rate applied. Capacities may not be combined.

## **HGST Quality and Service**

HGST Travelstar hard disk drives are designed to the highest quality standards and contain field-proven components. HGST provides worldwide technical support and integration services to enable global customers to bring their products to market quickly.

## How to read the Travelstar model number

HTS727575A9E364 = 750GB, SATA 3Gb/s

H = HGST

Т = Travelstar

S = Standard (vs E for Enhanced Availability)

72 = 7200 RPM

75 = Full capacity - 750GB

75 = Capacity this model, 75 = 750GB (64 = 640GB, 50 = 500GB)

= Generation code

= 9.5mm z-height E3 = SATA 3Gb/s with 512 emulation

6 = 16MB cache

= No encryption (1 = Bulk data encryption,

5 = TCG Opal Encryption)
