

# MR189 COAX/OPTICAL to Stereo Converter

## MR189 Key Features and Benefits

- Converts digital coaxial and optical (toslink) audio from SP/DIF to analog stereo audio.
- For use with home theater receivers, satellite dish receivers, cable TV recorders, TV's and other sources when an analog stereo output is required. This signal can be amplified and played on larger speakers near the TV and other speakers throughout the home.
- 24-bit incoming bit stream.
- Supports 32, 44.1, 48 and 96 KHz sampling rates.

## MR189

### Another in-demand problem solver...

The MR189 converts a digital coaxial or optical signal (generally from a video source) to an analog stereo output. In technical terms this is a digital coaxial and Toslink/Optical SP/DIF to stereo line level converter.

Perfect for home and professional audio applications, this converter saves the cost of expensive upgrade equipment for compatible connections to stereo equipment including amplifiers. Except for selecting a COAX or Optical source there are no adjustments required, making installation quick and easy. The small size makes it suitable for installation into virtually any location, regardless of space constraints, while still providing a lossless audio signal, free of degradation.

The stereo line level signal can be amplified by nearly any conventional stereo amplifier and be heard from stereo speakers (higher quality than most TV speakers) and can be played throughout the home, office, boardroom or wherever high quality sound is needed.

Knoll Systems makes a full line of high-quality audio and video products. Knoll Systems is known for its technical firsts and award winning amplifiers, infrared repeaters, volume controls and video projectors.

Knoll Systems amplifiers and projectors, along with an extensive line of home theater and custom installation products, offer performance and value that is unmatched worldwide.

### Specifications:

- Inputs:** Toslink optical, COAX digital RCA and 2.1mm power jack.
- Outputs:** Stereo 3.5mm audio jack
- Dimensions:** 2.2 x 2.4 x 0.8" h (55 x 60 x 20 mm h)
- Warranty:** One year limited parts and labor
