

SLOAN LED System Boards

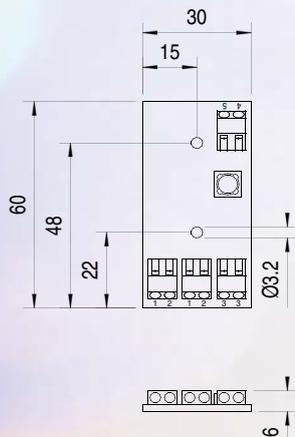

Current Control / EMC Filter

Current control for Power Leds

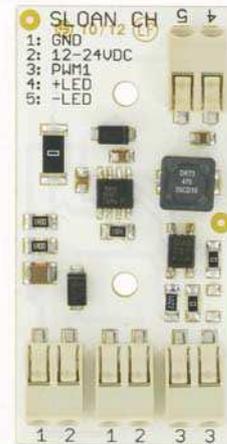

- For constant output current regulation of the SLOAN LED System Boards
- Input: 6 - 24 V DC / Output: 350 mA
- PWM dimming functionality

Part No.	Article
201 45 000	Current control Power LED

Dimensions (mm)

Input voltage must be 3V higher than the sum of the connected LEDs

EMC Filter

- For controlling the SLOAN LED System Boards
- max. 24 V DC
- max. 5 A
- EMC Compatible (EN 61000-6-2:2001 / EN 61547:1995)

Part No.	Article
201 45 001	EMC Filter

Dimensions (mm)
