

Rack Mounted **AC-DC** Power Supplies

Alfatronix Rack Mounted Power Supplies

Most Alfatronix products can now be provided ready installed into standard 2U 19" rack mounted casings. This offers the opportunity to provide output voltages of 5V, 12V, 24V, 48V and indeed specific voltages to your requirements as well as battery charging facilities.

All Alfatronix rack mounted casings are manufactured from light weight powder coated aluminium bodies with high quality anodised aluminium face plates.

Almost any Alfatronix product can be fitted inside these enclosures providing an almost unlimited range of output voltages from a common mains supply

Ordering

Please contact our sales staff providing an outline specification of the equipment you require. Our engineers will then design a deliverable configuration and present this to you for approval.

19" Rack Mount Systems

These systems were originally developed for railway applications, but have since become the standard format for a host of electronic equipment where complex systems are required.

Bespoke Systems

Each rack mounted system consists of a top quality 2U 19" rack casing together with the selection of Alfatronix power supplies you specify. For the electronics specifications of the individual units, please consult the relevant data sheets.

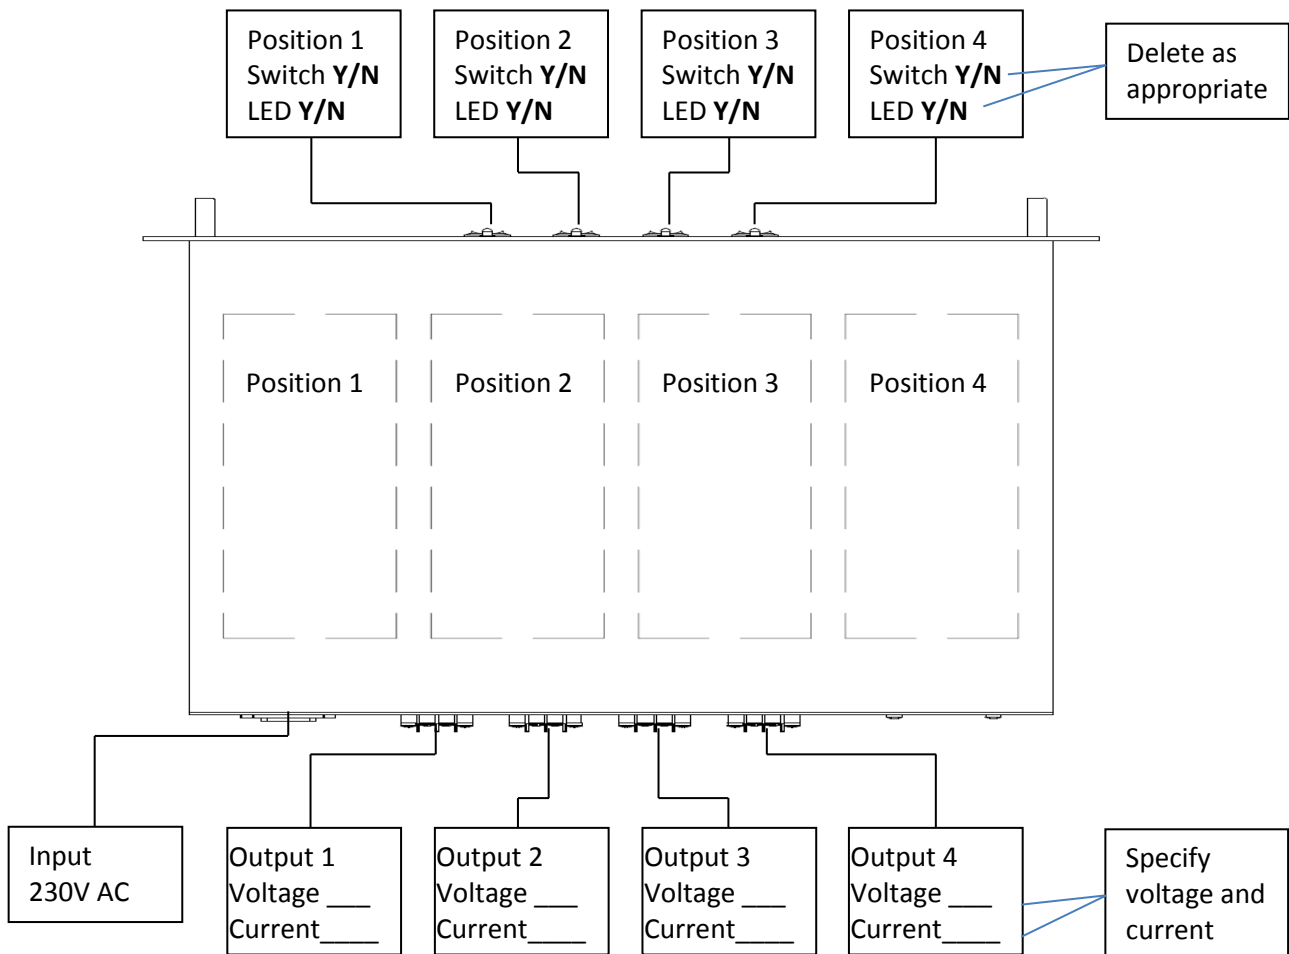

All electronic equipment requires power. The standard 19" rack offers a convenient and versatile solution.

Customer specification form

Please select from the following products:

- AD115/230-12 036** - 3A, 36 Watts, 12 Volt Output Power Supply
- AD115/230-12 072** - 6A, 72 Watts, 12 Volt Output Power Supply
- AD115/230-12 108** - 9A, 108 Watts, 12 Volt Output Power Supply
- AD115/230-12 168** - 14A, 168 Watts, 12 Volt Output Power Supply
- AD115/230-12 240** - 20A, 240 Watts, 12 Volt Output Power Supply
- AD115/230-24 036** - 1.5A, 036 Watts, 24 Volt Output Power Supply
- AD115/230-24 072** - 3A, 072 Watts, 24 Volt Output Power Supply
- AD115/230-24 108** - 4.5A, 108 Watts, 24 Volt Output Power Supply
- AD115/230-24 168** - 7A, 168 Watts, 24 Volt Output Power Supply
- AD115/230-24 240** - 10A, 240 Watts, 24 Volt Output Power Supply
- AD115/230-48 036** - 0.75A, 036 Watts, 48 Volt Output Power Supply
- AD115/230-48 072** - 1.5A, 072 Watts, 48 Volt Output Power Supply
- AD115/230-48 108** - 2.25A, 108 Watts, 48 Volt Output Power Supply
- AD115/230-48 168** - 3.5A, 168 Watts, 48 Volt Output Power Supply
- AD115/230-48 240** - 5A, 240 Watts, 48 Volt Output Power Supply

- IC230-12 108** - 7A, 108 Watts, 12 Volt Intelligent Charger
- IC230-24 108** - 3A, 108 Watts, 24 Volt Intelligent Charger
- IC230-12 240** - 17A, 240 Watts, 12 Volt Intelligent Charger
- IC230-24 300** - 12A, 300 Watts, 24 Volt Intelligent Charger
