

Wireless/Wired USB Hi-Speed 11g Print Server Canon C-6700WG

Ideal for

Canon PIXMA Ink-Jet

Canon imageCLASS CAPT Laser printers

Canon PIXMA Multi-Function printers

Ideal for sharing Canon Multi-Function and USB printers

The C-6700WG provides convenience and flexibility to share your Canon Multi-function and USB-printer on a Wireless or Wired Local Area Network.

Like the rest of silex's C-Series products, the C-6700WG is developed in close association with Canon.

Enjoy all functions of your Canon printers over the network - as if they were locally connected.

Key features

- ⦿ Printing, scanning, memory card storing and PC fax over a Wireless Local Area Network or LAN
- ⦿ Compatible with most Canon Multi-Function and USB printers
- ⦿ Easy wireless configuration with Windows® Connect Now support
- ⦿ Canon printer status monitoring support

MFP/AIO-Server	Print Server	Scanner Server	Storage Server	WEP & SSID	Internet Printing Protocol
1 USB-Port	Multi-language Support	Canon Status Monitor	USB 2.0 Hi-Speed	IEEE 802.11b/g Wireless	IP Filtering Enhanced Security

Ideal for sharing Canon Multi-Function and USB printers

Features and benefits

- Convert your Canon MFP and printers to a shared network resource**
 With the C-6700WG, you can remotely share a Canon USB MFP/printer over the network while at home with your family members or at the office with co-workers.
- Network printing, scanning, memory card sharing and PC fax.**
 The C-6700WG provides easy wireless network access with full functionalities of the compatible Canon device.
- Real-time Canon printer status monitoring support**
 The convenience of the Canon status monitoring function is available on the network as if it was locally connected to your PC. You can remotely monitor various defined printer operating conditions such as ink levels and paper empty on a real-time basis.

- Easy wireless configuration with Microsoft Windows Connect Now***
 The C-6700WG supports Microsoft Windows Connect Now. It simplifies the complicated wireless network initial configuration. The process is very easy. Use the Windows XP Connect Now wizard, save the results on your USB flash thumb drive, and then insert the thumb drive to the C-6700WG. It automatically creates the wireless configuration instantly. Alternatively, the C-6700WG can be configured over a wired LAN connection.
- * Supported only with Windows XP Service Pack 2 or greater

- Advanced Wireless Security Support**
 64/128 WEP is supported as well as WPA-PSK (TKIP/AES) to securely print, scan or store your data over the wireless network.
