

AD 350 Digital Display

The model AD350 Digital Display has three and a half (3.5) – three inch high digits composed of 18 individual LED's. Provide exceptional visibility to 60 feet even under overhead lighting conditions. Accepts your voltage analog input through miniature jack provided to count up to 1999. Plug into 115VAC, 60Hz grounded outlet. Attach your analog input to plug provided and plug into jack on side of display. Ideal for any application where results need to be seen from a distance. Eliminates need to be within several feet of control panel to monitor production.
