PN 1263

PN 1266

- Designed to be installed in a split panel mounting hole or dropped into a slot.
- Can be used for one wire or bundles of wire (round or flat wire).
- Securely anchors, insulates, and protects wire at panel entry points against forces of pull, push, or twist.
- Part 1266 is assembly friendly and self-locks onto the wire. It may be preassembled offline for final assembly at a later time or remote location, for lower installed cost and faster assembly. It has a unique wire locking ratchet that allows for generous wire range from .250" (6,4 mm) to .600" (15,2 mm).
- Part 1266 UL recognized for multiple cables/conductors.

Material	Nylon 6/6
Certifications	Recognized under the Component Program of Underwriters' Laboratories File E15331 Certified by Canadian Standards Association File 8919
Flammability Rating	94V-2
Material Temperature Index	257°F (125°C)–Maximum temperature on part not to exceed 221°F (105°C)
