

Mechanical Counters, Ratchet Type Series M39

*M39 Series
3-digit*

*M39 Series
4-digit*

*M39 Series
5-digit*

Level is returned to its original position by means of internal spring. Compact and rugged, this counter is ideally suited for installation on machine tools, automatic vending machines, and industrial applications where only limited space is available. There will be little or no wear of the bearing. Offered in a black case in 5-digit, 4-digit, and 3-digit types. Units are also available in right or left hand shafts and top coming or top going direction.
