

Mechanical Counters, Rugged, Economical Ratchet Drive Counter, **Series M2B**

M2BA60A

The Model M2B is the first mechanical addition to ENM's Compac Series of digital counters and compact it is! This stroke counter measures only 1.72" W x 1.19" H x 1.69" D, excluding shafts and feet. So if you have a stroke counter application, the Model M2B is bound to fit it.

Model M2B operates at the rate of 500 counts per minute, with a half-count on the power stroke and a half-count on the return. Ratchet driven, with stop, the Model M2B is available with right or left hand shafts—either top coming or top going. The shaft(s) oscillates 17° per count.

Universal "L" slots enable the device to be easily base mounted.

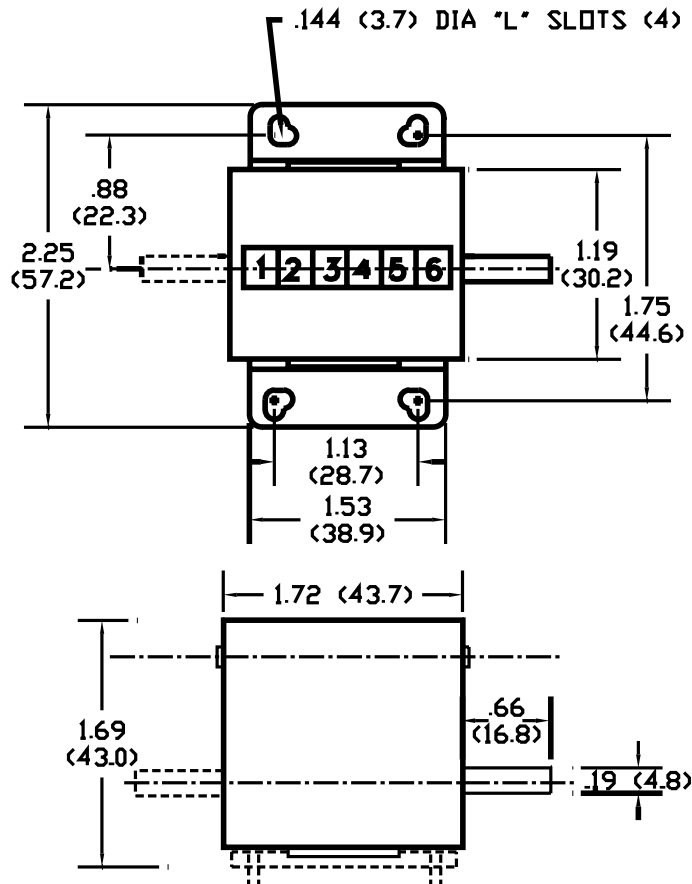

Features

- 5 or 6 Digit Models
- Compact, Easy to Mount
- Right Hand, Left Hand or Double Shaft
- Available Options
- Made in the U.S.A.
