

## Miniature Adding Counters, Series P2G/ E9E

*P2G Panel Mount*

*E9E PCB Mount*

*E9E PCB Mount*

### *Panel and PCB Mount Counters with Low Power Consumption*

Series P2G Counter is a miniature panel mount counter ideal for easy installation when space is limited. Series E9E Counter is suitable for direct soldering and PC Boards. Both are suitable for battery operation and electrical circuitries.

Unique design allows accurate counting even under severe shock and vibrations.

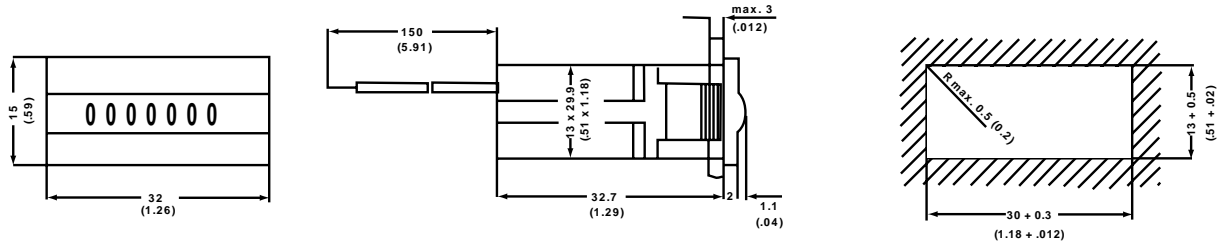

- Small Size, Low Cost
- AC and DC Voltage
- Low Power Consumption
- Long Service Life
- High Accuracy and Reliability
- Easy Installation
- Enhanced Readability
- No Battery Back-Up Required
- Waterproof Versions Available
- ISO 9001

### Specifications

Figures:	7 (4,5 optional)
Figure Dimensions:	.118" H x .039" W .158" H / magnifying window
Count Speed:	600 cpm AC 600 or 1500 cpm DC
Voltage:	12, 24, 110, 220 VAC 1, 1.5, 3, 4, 4.5, 6, 9, 12, 24 VDC
Power Consumption:	Minimum 30 mW
Operating Temperature Range:	-10°C to +85°C
Service Life:	500 million counts plus
Mounting:	Panel, PCB Mount
Termination:	Leads (5.9" Long) — Standard PCB pins — Optional
Weight:	.53 to .63 oz.

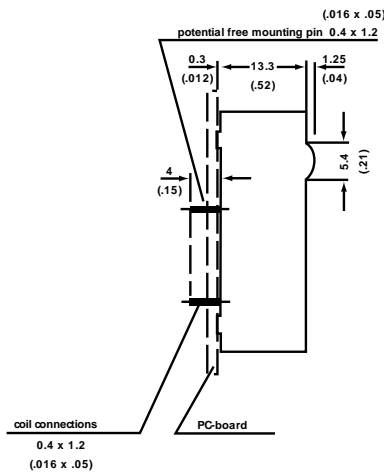

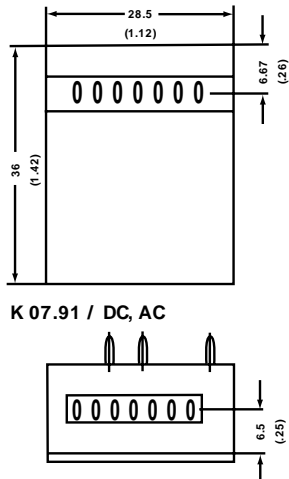

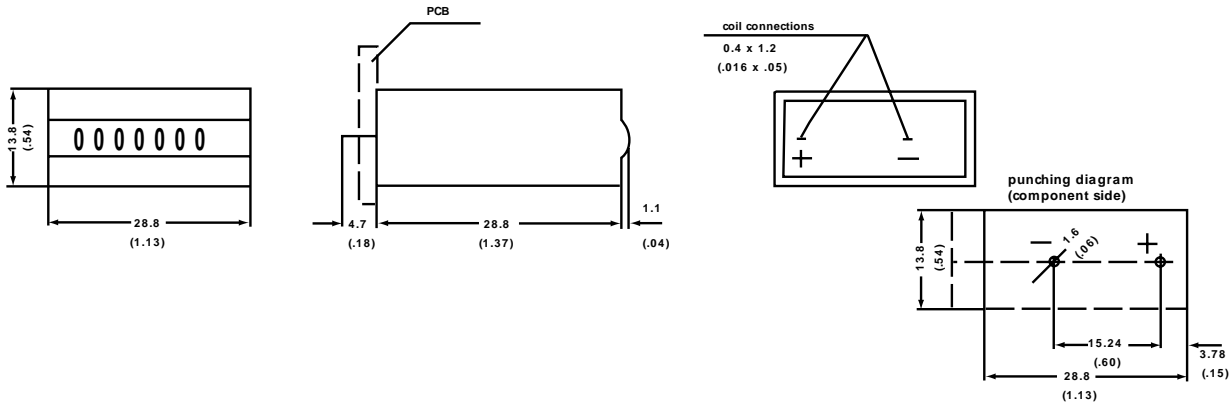

### Series P2G Panel Mount

(ALL DIMENSIONS IN PARENTHESES ARE IN INCHES)

### Series E9E PCB Mounts

(ALL DIMENSIONS IN PARENTHESES ARE IN INCHES)
