

CEN-FUSION-RVS-R310

Pre-configured Fusion RV™ Server System

- > Ready to go server running Crestron® Fusion RV™ Remote Asset Management Software
- > Hassle-free method for deploying Fusion RV without expensive IT costs
- > Compact single-space rack mount chassis
- > Intel® Xeon® X3470 quad-core processor
- > 8 GB of memory
- > Two hard drives and one DVD-ROM
- > Windows Server® 2008 R2 and SQL Server® 2008, pre-installed
- > Dual gigabit Ethernet ports
- > Dell® 3-year warranty
- > 24x7 technical support and next business day on-site service

The CEN-FUSION-RVS-R310 is an out-of-the-box hardware server, pre-configured and ready to go with Fusion RV™ Remote Asset Management Software pre-loaded. For commercial organizations without a large IT infrastructure, specifying and configuring a server is costly and time-consuming. The CEN-FUSION-RVS-R310 is a convenient solution for getting a Fusion RV system up and running quickly and reliably^[1].

Hardware

The server is a compact 1 RU chassis with hardware specified by Crestron® and built by Dell®. With an Intel® Xeon® X3470 processor, 8 GB of memory, dual gigabit Ethernet, and two hard drives, the server is optimized for running Fusion RV smoothly. All hardware is covered by Dell with a 3 year warranty. Dell also provides three years of 24x7 technical support with next business day on-site service.

Software

All necessary software is installed and configured for typical use. This includes Microsoft® Windows Server® 2008 R2, Microsoft SQL Server® 2008, and the latest version of Fusion RV. Crestron specifies 10 Client Access Licenses for SQL Server to ensure that you are in compliance with Microsoft license agreements. Also included is a CD with the Fusion RV installer and PDFs of all product documentation.

SPECIFICATIONS

Software
