

CLW-SLVU-230-P

Cameo® In-Wall Remote Dimmer, 230V

- > Field-replaceable, engravable buttons
- > Available in all designer colors
- > Models popular Cameo® style
- > Configurable with rocker or 2 buttons
- > Supports CLW-DIMEX-230-P and CLW-DELVEX-230-P

The CLW-SLVU-230-P is a Cameo® in-wall remote dimmer which features field-replaceable, engravable buttons. Available in designer colors and configurable with 2 buttons or in a rocker layout, the CLW-SLVU-230-P uses a “universal” design, capable of interfacing with the [CLW-DIMEX-230-P](#) and [CLW-DELVEX-230-P](#).

Multipoint Dimmer

The CLW-SLVU-230-P lets you control lights or other dimmable loads from multiple locations. Similar to traditional 3- or 4-way circuits, the CLW-SLVU-230-P connects to the main Cameo dimmer via the “traveler” wire. The remote dimmer does not need to be programmed, providing instant usability upon installation. Up to 9 CLW-SLVU-230-P can be connected to a single Cameo dimmer.

Field-Replaceable Button Faces

Like Cameo dimmers and switches, the buttons on the CLW-SLVU-230-P can be swapped in the field, making it easy to change engraving or color after installation. The new rocker controller brings a familiar user interface to the Crestron in-wall switch, while the 2 button layout offers clear on/off control.

SPECIFICATIONS

Power Requirements

230 Volts AC, 50/60Hz, line power

Controls

2 buttons or rocker for dim/switch control or recall of presets

LED Indicator

Feedback: (1) White LED light pipe pinhole
