

Comark Catercheck 3 Thermometer

The Comark Catercheck 3 Thermometer combines the performance and accuracy of the C20 thermometer, with a permanently connected penetration probe.

Ideal for all food manufacture, processing, catering and food service applications, the Catercheck 3 is an economical choice.

Operation could not be easier with a single on/off switch and a large, clear LCD display.

- **Long Battery life** of up to 5 years saves on operating costs
- **Permanently Connected Probe** avoids probes being lost
- **Thermistor** for applications requiring higher accuracy
- **Auto-switch off** preserves battery life
- **Case rated to IP67** waterproof and dustproof
- **°C Scale**
- **Large LCD display**

Comark is the only manufacturer to use BioCote® antimicrobial protection to provide an important extra level of defence against cross-contamination.

Comark is the leading manufacturer and supplier of a wide range of electronic measurement instruments for temperature, humidity, pressure and pH.

Temperature Measurement	
Sensor	Thermistor
Measurement Range	-40°C to +125°C
Scales	°C
System Accuracy at +23 °C	±0.5°C -20°C to 70°C
Operating Temperature	-20°C to 50°C

General	
Display	4 digit, 12.mm LCD
Battery	2 x Type I.E.C, LR6 Size AA Customer Replaceable
Battery Life	Up to 5 Years
Dimensions	Length 152mm Width 58mm Depth 22/27mm
Weight	226g

Technical Specification

WARRANTY

All Comark instruments have a minimum one year warranty unless otherwise stated. The warranty period for temperature probes is for six months and all other probes and electrodes are unwarranted because the conditions of use are beyond our control. The Comark warranty covers manufacturing defects and component failures on all products returned to Comark premises and applies worldwide. The warranty does not affect your statutory rights. In line with our policy of continuous development we reserve the right to alter any product specifications without notice. All products are covered by our Quality Management System which is compliant with BS EN ISO 9001:2008 for the design, manufacture, supply, service, repair and recalibration of electronic measuring instruments and equipment.

BIOCOTE®

Selected Comark thermometers, probes and data loggers have BioCote's silver technology incorporated into instrument cases and probe handles at the time of manufacture. The antimicrobial finish inhibits the growth of bacteria, reducing the risk of cross-contamination and infection in the environment and is becoming accepted within HACCP and due diligence procedures as an important extra level of defence.
