

300 W multi output power supply

Description

This multi output ACDC powersupply is designed for test and measuring equipment where low EM-noise and a high efficiency is important.

Specifications

- Product name: ANL04
- Input voltage: 88...264 Vac
- Output:
 - +5 V / 20 A
 - +12 V / 6 A
 - 12 V / 6 A
 - +5.5 V / 8.5 A
- Efficiency at 230 Vac: 88 %
- Power factor: > 0.95
- Dimensions: 425 x 60 x 112 mm
- EMC: according EN55011 class B
- Safety: EN60950, EN61010
- Protections: Overcurrent, overvoltage, Tem
- Temperature range: 0...50 °C

Applications

- Instrument powersupply for industrial applications
