

6500 W ACDC Power supply

Description

This ACDC Power supply is designed for Electro Chemical Machining production equipment. It can provide current pulses up to 100 A and to a maximum voltage of 65 V

Specifications

- Product name: PBL6000
- Input voltage: 180...264 Vac; 50/60 Hz
- Output voltage: 8...65 V
- Output current: 0...100 A
- Power factor: > 0.98
- Efficiency: > 92 %
- Puls specifications: 0...1 kHz and 0...100 % duty cycle
- Safety: EN 60950
- Protections: Safety relay, Emergency Stop, Thermal
- Temperature range: 0...40 °C
- Dimensions: 395 x 131 x 307 mm

Applications

- Industrial applications, electro-chemical processes
