Charging your Kobo eReader with a wall adapter

You can charge your Kobo eReader with any 5V, 500mA Micro USB adapter.

Note: If you're travelling to a country with different electrical systems, be sure you have the proper converter before you charge your Kobo eReader using a power outlet.

Turning your Kobo eReader on and off

Turning your Kobo eReader off or putting it to sleep both help your battery last longer.

When you put your eReader to sleep and then wake it up, you go directly back to the last screen you saw. This could be a page in a book, the Kobo Bookstore, or an area in your Library.

If you turn your eReader off, you'll go directly to your Home page when you turn it on again.

- **To turn your eReader on:** Slide the power button to the right and hold it for one second. The eReader will turn on and you will see the Powering On screen.
- **To put your eReader to sleep:** Slide the power button to the right and then release it quickly.
- **To wake up your eReader:** Slide the power button to right and then release it.
- **To turn your eReader off:** Slide the power button to the right and hold it until the Powered off screen appears.

Using the touch screen

When your eReader is on, you can touch the screen to open books, turn pages, select items, and more. Here are a few gestures you might find useful.

- **Swipe:** Use this gesture to scroll through the books in your Library and turn pages.

Note: Not all books allow text selection. For example, you cannot select text in PDFs or comic books.

You can adjust the ComfortLight brightness from your Home screen or while you're reading. Before you adjust

your screen's brightness, press the Light button on your eReader to turn on ComfortLight.

Make sure your Wi Fi is enabled and you are connected to a network before syncing your eReader.

1. Go to your Home screen.
2. Tap the  **Sync** tile.
 - If you're within range of a known network, your eReader will automatically join that network and begin syncing.
 - If you aren't within range of a known network, your eReader will begin the Adding a Network process.

Syncing your Kobo eReader with Kobo Desktop

You can also sync your eReader by connecting it to your computer with Kobo Desktop. Kobo Desktop is free software that lets you add and manage books on your eReader. Your computer should be connected to the Internet before you sync.

Getting started with Adobe Digital Editions

Adobe Digital Editions (ADE) is free software that lets you add eBooks from a public library, eBooks from another store, or eBooks from the Kobo Store that are protected by Digital Rights Management (DRM), to your Kobo eReader.

DRM prevents the unauthorized copying or redistribution of eBooks, to protect the rights of authors and publishers. If you downloaded a book protected by DRM, you'll get a license, also known as a URLLINK.acsm file, with your book. You will use ADE to add DRM-protected content to your eReader.

To get started with ADE:

- Install Adobe Digital Editions
- Get an Adobe ID
- Authorize your computer and eReader with ADE

Note: If you use a Kobo eReader or Kobo's reading apps, you may never need to use ADE. Kobo's reading apps and eReaders can automatically download and open most books from the Kobo Store.

Installing Adobe Digital Editions

Install Adobe Digital Editions (ADE) on your PC or Mac computer to transfer Digital Rights Management (DRM)-protected content onto your Kobo eReader.

1. Download ADE from Adobe.com.
2. Find the ADE installation file on your computer.

3. Click **Get an Adobe ID**.
4. Fill in the appropriate text boxes on the form.
5. Click **Sign up**.

If you downloaded a book protected by Digital Rights Management (DRM), you'll get a license, also known as a URLINK.acsm file, with your book. 1. Turn on your eReader.
2. Connect your eReader to your computer using a Micro USB cable.
3. Tap **Connect** on your eReader.
4. On your computer:
 - a. Go to the folder where your eBook is saved.
 - b. Double-click the URLINK.acsm file.
The book will open in ADE.
 - c. Click **Library** at the top of the screen.
 - d. Click **All Items** under the Bookshelves menu.

- e. Select your new book and drag it to the Kobo eReader bookshelf (listed on the left side under Devices).
5. Eject your eReader from the computer, and unplug the Micro USB cable from your eReader. The book will appear in your Library.
