Product Description

BeRex's BL082 is a high performance LNA, based on GaAs material with E-pHEMT process and packaged in a RoHS-compliant with SOT-363 Surface mount package. It is designed for use where low noise and high linearity are required and features low noise and high OIP3 with low current at wideband frequency. It requires a few external matching components. All devices are 100% RF/DC tested and classified as HBM ESD Class 0.
