

Unattended Automated Disc Printing

Churches, schools, sales and marketing departments, government offices, videographers, and recording studios alike will benefit from the ease, speed, affordability, and professional results derived from the Microboards G4 Auto Printer.

You are certain to make a positive impression with finished CDs, DVDs, and Blu-ray Discs that look amazing, thanks to HP inkjet technology and the vibrant colors derived from HP inks. When you use the G4 Auto Printer, the process of producing professionally finished discs—in mid-to-high volumes—is nearly effortless. Anyone—even novice users—can easily operate the printer, thanks to a radically intuitive user interface and labeling software, designed specifically for the Microboards product line. Set it up and walk away—the 50-disc capacity enables automatic unattended printing of all your discs without hiccup.

The industrial G4 Auto Printer is your answer to printing discs quickly and cost-effectively—delivering discs with both text and graphics in less than 20 seconds and for only 25¢ per disc. SureThing label design software enables you to

create labels with a professional flair. And whether you're printing full-color, full-coverage discs or light coverage with text only, you'll enjoy results of the highest quality.

Our 4th generation disc handling technology provides smooth, clean images; and HP inkjet technology provides consistently brilliant color—in text and images—on each and every disc.

Take your efforts to the next level with the latest Microboards innovation, and our service and support technicians who are always available—if or when you need them.
