QUIC DISC BLU-RAY AUTOLOADER (QDL-1000-BD)

Available by special order only!

Microboards presents the industry's most space-efficient automated Blu-ray Disc duplicator! Measuring in at just 9" high and 16" wide, the QDL-1000 Blu-ray Autoloader is the easiest way to automatically duplicate up to 25 discs at a time. The QDL's reliable, robotic arm picks up discs from the lower tray, lifts them to the recording drive, and deposits finished discs in the output tray, ready for use. Try printing labels using a Microboards disc printer for a fully-finished product.

Perfect for the small business, office, or home, the QDL-1000 copies discs automatically, unattended, at a very affordable price. Need a handful of copies on the go and don't want to waste system resources by recording on your computer? The QDL burns Blu-ray Discs at 8X, as well as DVDs at 20X and CDs at 40X, and is completely standalone. Simply insert a master disc and blanks, and the QDL does the rest.

Operating Type: Standalone Automated

Target Drives: 1

Max Disc Capacity: 25 Discs
