

QDL-3000 BLU-RAY

QUIC DISC 3000 BLU-RAY AUTOLOADER (QDL-3000-BD)

The QDL-3000-BD from Microboards Technology is the perfect solution for small Blu-ray jobs (as well as CD and DVD). With a manageable footprint not much larger than a shoe box, the QDL-3000-BD fits in any office or cubicle and works unattended to make up to 60 copies per run.

Plus at an incredibly low price point, the QDL-3000-BD fits nearly any budget. With a 60-disc capacity and three recording drives, the QDL-3000-BD gives you the ability to work on more important matters with the confidence that your project will be duplicated quickly and reliably without breaking the bank.

The upgraded Blu-ray models allow the user to duplicate Blu-ray Discs in addition to CD and DVD discs. With the large amount of data capable of being held on a Blu-ray disc, the duplication time is longer than standard CDs or DVDs. That's why an autoloader really pays off.

Operating Type: Standalone Automated

Target Drives: 3

Max Disc Capacity: 60 Discs

Hard Drive: Built-in 500GB

Display: 20 x 2 LCD

Recorder: 8x Blu-ray, 24x DVD±R/RW, 48x CD-R/RW Recorder
