

Tamper evident security labelling, thermal transfer

- Material 951 (Silver), 2 parts

Features and Benefits

This type of label has been developed especially for the requirements of marking on vehicles. When used in conjunction with the appropriate protective laminate, they are ideal due to their very high durability in outside use. The fraud-proof layer acts as a seal. Since it can only be removed by destroying it, any tampering can be spotted immediately. Use of the type rating plate type 951A in conjunction with the type 951B laminate for chemical and mechanical protection meets the requirements of the KBA (German Federal Motor Transport Authority).

For problem-free printing, we recommend Tagprint Pro software, TT4000+ or TT420+ using TT822OUT ribbon.

Type plate of an HGV trailer with protective laminate.

Thermal Transfer Printer

The printed silver type plate (Mat. 951A) is protected by the transparent laminate (Mat 951B).

Material Data	
Material	Type 951, Polyester, silver (SR) and Polyester, transparent (CL)
Application	For automotive and electric industries for tamper proof applications. Particularly suitable as type label according to norms of German Kraftfahrtbundesamt (KBA).
Recommended Ribbon Type	TT822OUT
Operating Temperature	-40 °C to +150 °C
Curing Temperature	from 0 °C

Technical Table

Article-No.	Type	Colour	Width (W)	Height (H)	Width of Liner (WL)	Labels per Row	Pack Cont.
596-44951	TAG25.4-12.7TD1-951 SET	Silver (SR)	25.40	12.70	31.50	1	1000
596-43951	TAG50.8-25.4TD1-951 SET	Silver (SR)	50.80	25.40	56.80	1	1000
596-42951	TAG63.5-50.8TD1-951 SET	Silver (SR)	63.50	50.80	69.50	1	500
596-41951	TAG101-74TD1-951 SET	Silver (SR)	101.60	74.00	107.00	1	250
596-40951	TAG101-160TD1-951 SET	Silver (SR)	101.60	160.00	105.80	1	250

All dimensions in mm. Subject to technical changes.
