

Asset identification label, thermal transfer

• Material 1206 (White)

Features and Benefits

A glossy white polyester label suited for the generation of asset tracking labels where a good contrast is needed against a coloured background.

The white colour guarantees a suitable contrast for all barcode scanners to read printed barcodes.

For problem-free printing, we recommend Tagprint Pro software, TT4000+ and TT420+ printers with TT822OUT ribbons.

Helatag label for a permanent asset identification.
