

Component labelling, thermal transfer

- **Material 1210 (White),
for rough surfaces**

Features and Benefits

A smooth and conformable white vinyl label suited for labelling both smooth and slightly rough surfaces. The material's ability to withstand areas where oil and moisture is present is an important feature. This material can also be used as a cable flag to identify cables when more information such as barcoding is needed.

For problem-free printing, we recommend Tagprint Pro software, TT4000+ and TT420+ printers with TT822OUT ribbons.

Thermal Transfer Printer

Rapid identification marking of products.
